## Configuraciones previas al desarrollo

### 1) Instalar GIT para Windows

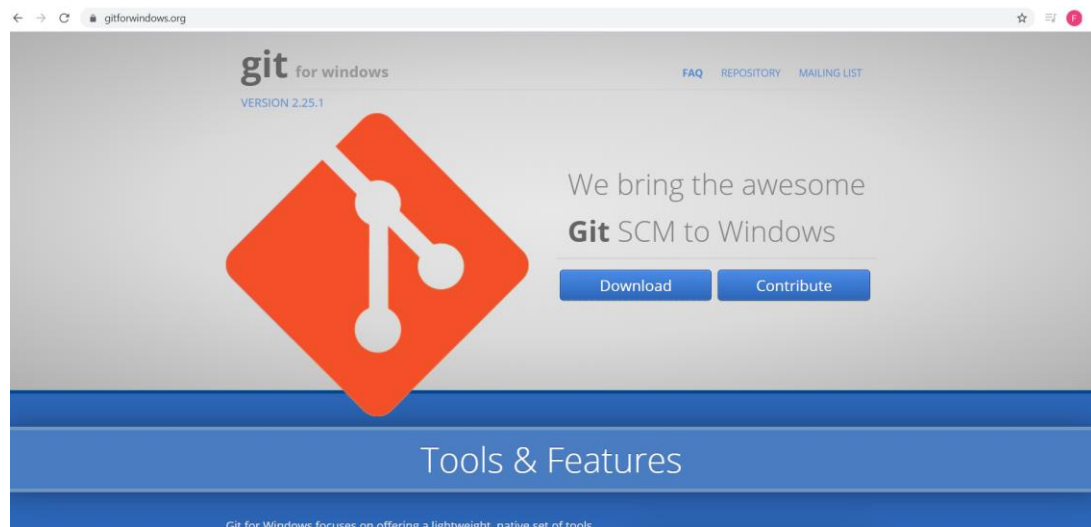

Primero, mediante línea de comandos, verificamos si tenemos instalado GIT:

```
CA Símbolo del sistema
C:\Sites\Development>git --version
git version 2.25.1.windows.1
C:\Sites\Development>
```

En caso no se tenga instalado, ingresar a la web de GIT y descargar la versión para Windows.

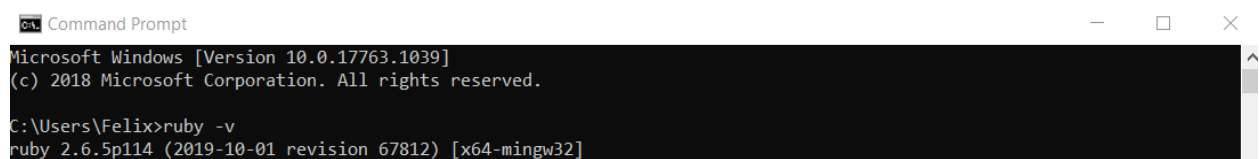

Instalarlo.

### 2) Verificar la correcta versión de ruby

Ejecutar:

# ruby -v

```
CA Command Prompt
Microsoft Windows [Version 10.0.17763.1039]
(c) 2018 Microsoft Corporation. All rights reserved.
C:\Users\Felix>ruby -v
ruby 2.6.5p114 (2019-10-01 revision 67812) [x64-mingw32]
```

### 3) Verificar la correcta versión de node

Ejecutar:

```
# node -v
```

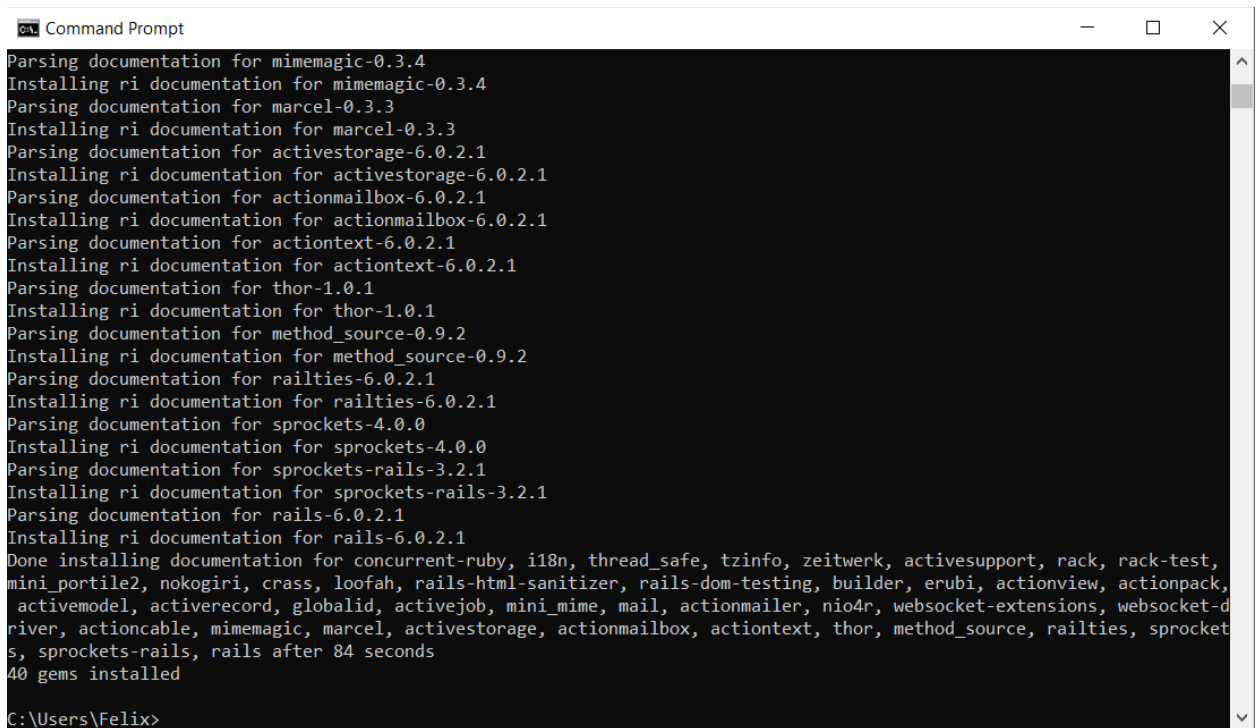

```
Command Prompt
C:\Users\Felix>node -v
v10.16.3
```

### 4) Instalar rails

Ejecutar:

```
# gem install rails
```

```
Command Prompt

```

## 6) Actualizar el Yarn

Ejecutar

```
# yarn install --check-files
```

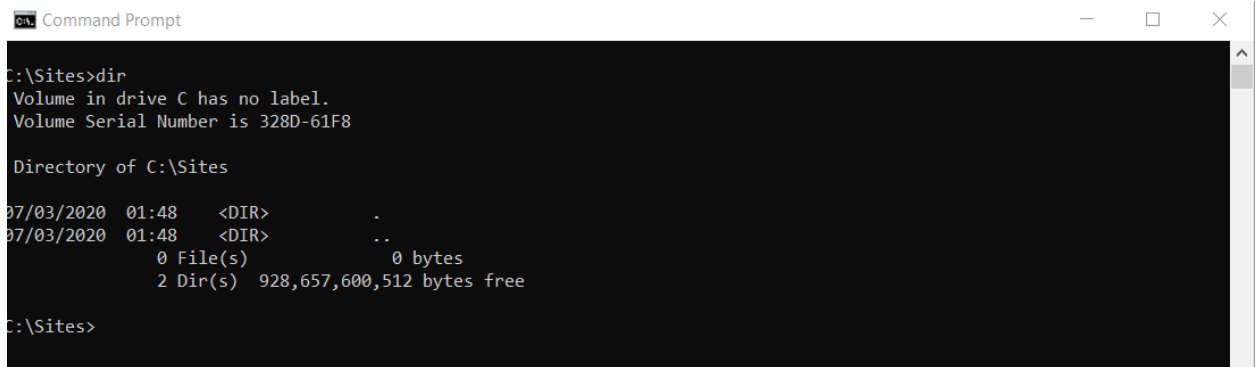

```
Símbolo del sistema

C:\Sites\Development>yarn install --check-files
yarn install v1.22.1
info No lockfile found.
[1/4] Resolving packages...
[2/4] Fetching packages...
[3/4] Linking dependencies...
[4/4] Building fresh packages...

success Saved lockfile.
Done in 0.10s.

C:\Sites\Development>
```

## 7) Crear una carpeta Sites

```
Command Prompt

C:\Sites>dir
Volume in drive C has no label.
Volume Serial Number is 328D-61F8

Directory of C:\Sites

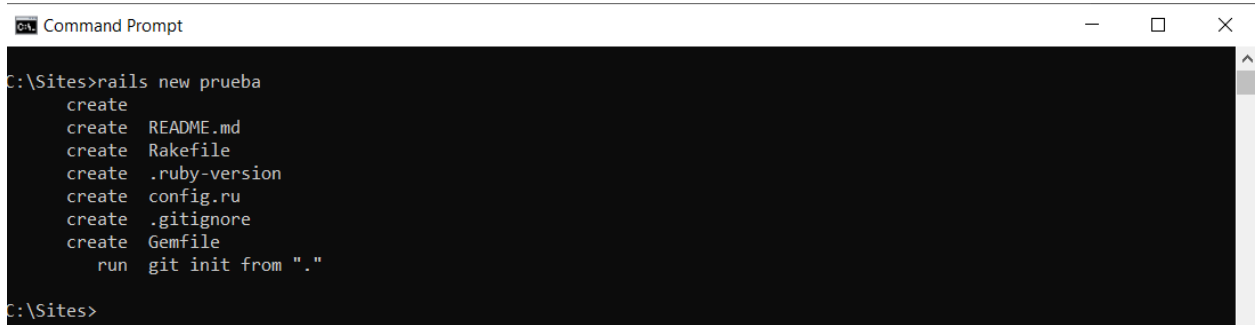

07/03/2020  01:48    <DIR>        .
07/03/2020  01:48    <DIR>        ..
               0 File(s)                0 bytes
               2 Dir(s)  928,657,600,512 bytes free

C:\Sites>
```

Ejecutar:

```
# rails new prueba
```

Se termina de descargar las librerías faltantes

```
Command Prompt

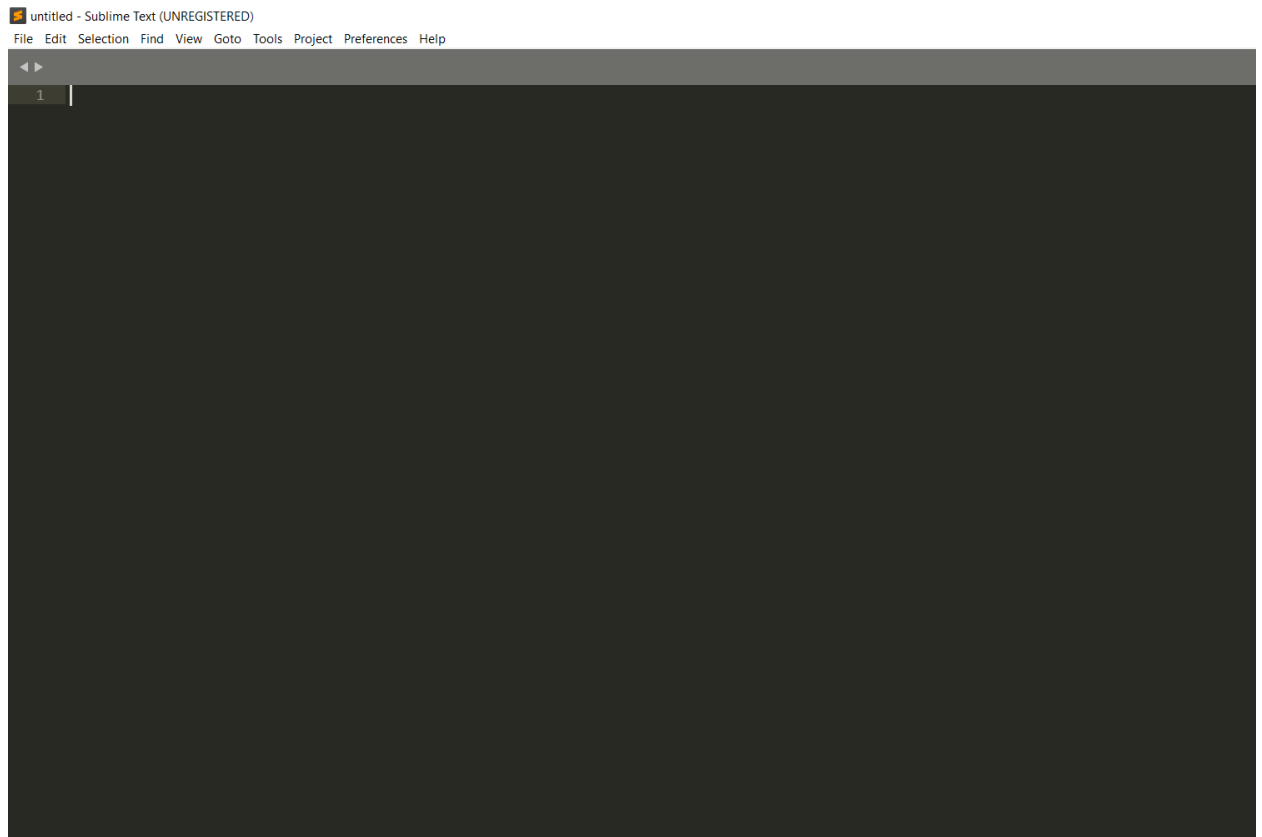

C:\Sites>rails new prueba
create
create  README.md
create  Rakefile
create  .ruby-version
create  config.ru
create  .gitignore
create  Gemfile
       run git init from "."

C:\Sites>
```

## 8) Instalar Sublime

Ingresar a <https://www.sublimetext.com/3> y descargar la versión para Windows.

Abrir el ejecutable:

Listo, ahora podemos empezar a desarrollar.

## Sprint 1

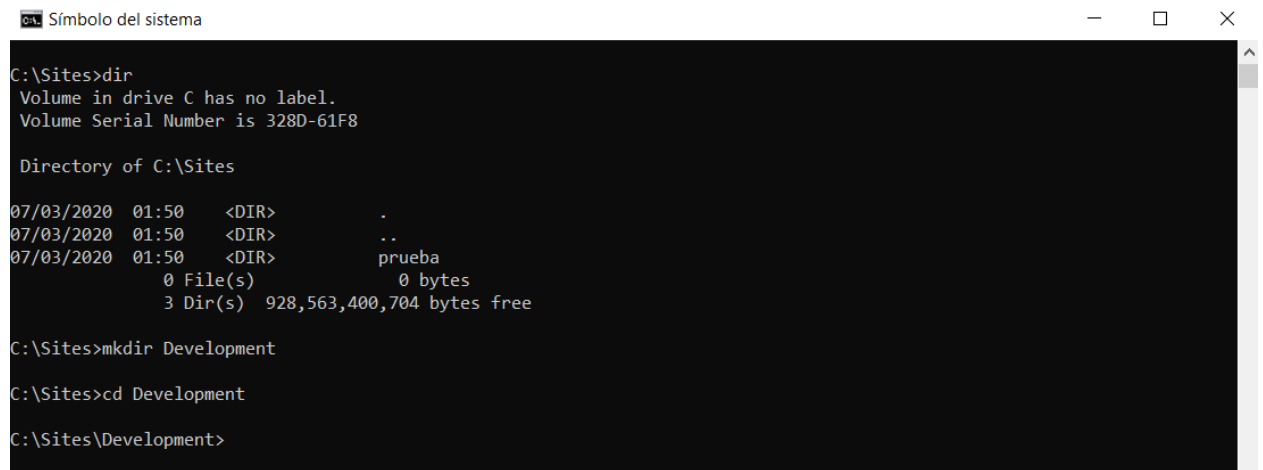

A través de los siguientes pasos, crearemos una aplicación en Ruby on Rails que represente el sitio de Wok & Wine, una cadena internacional de restaurantes.

### 9) Creación de carpeta Development

En esta carpeta iremos a desarrollar la aplicación:

```
# mkdir Development
```

```
# cd Development
```

The screenshot shows a Windows Command Prompt window titled "Símbolo del sistema". The user is in the C:\Sites directory. They run 'dir' to list the contents, which shows a directory named 'prueba'. Then they run 'mkdir Development' to create a new directory. Finally, they run 'cd Development' to move into the new directory. The prompt then shows 'C:\Sites\Development>'.

```
C:\Sites>dir
Volume in drive C has no label.
Volume Serial Number is 328D-61F8

Directory of C:\Sites

07/03/2020  01:50    <DIR>          .
07/03/2020  01:50    <DIR>          ..
07/03/2020  01:50    <DIR>          prueba
               0 File(s)                0 bytes
               3 Dir(s)  928,563,400,704 bytes free

C:\Sites>mkdir Development

C:\Sites>cd Development

C:\Sites\Development>
```

### 10) Creación de nuevo proyecto

Se requiere crear un nuevo proyecto, en base al framework rails. Ejecutar:

```
# rails new restapp-sprint1
```

```
Símbolo del sistema
-- portfinder@1.0.25
-- proxy-addr@2.0.6
-- querystringify@2.1.1
-- raw-body@2.4.0
-- regexp.prototype.flags@1.3.0
-- retry@0.12.0
-- select-hose@2.0.0
-- selfsigned@1.10.7
-- serve-index@1.9.1
-- serve-static@1.14.1
-- sockjs-client@1.4.0
-- sockjs@0.3.19
-- spdy-transport@3.0.0
-- spdy@4.0.1
-- thunky@1.1.0
-- type-is@1.6.18
-- unpipe@1.0.0
-- utils-merge@1.0.1
-- wbuf@1.7.3
-- webpack-dev-middleware@3.7.2
-- webpack-dev-server@3.10.3
-- websocket-extensions@0.1.3
-- ws@6.2.1
-- yargs-parser@11.1.1
-- yargs@12.0.5
Done in 23.57s.
Webpacker successfully installed 0 00 0000
C:\Sites\Development>
```

Se debería crear un proyecto y su estructura:

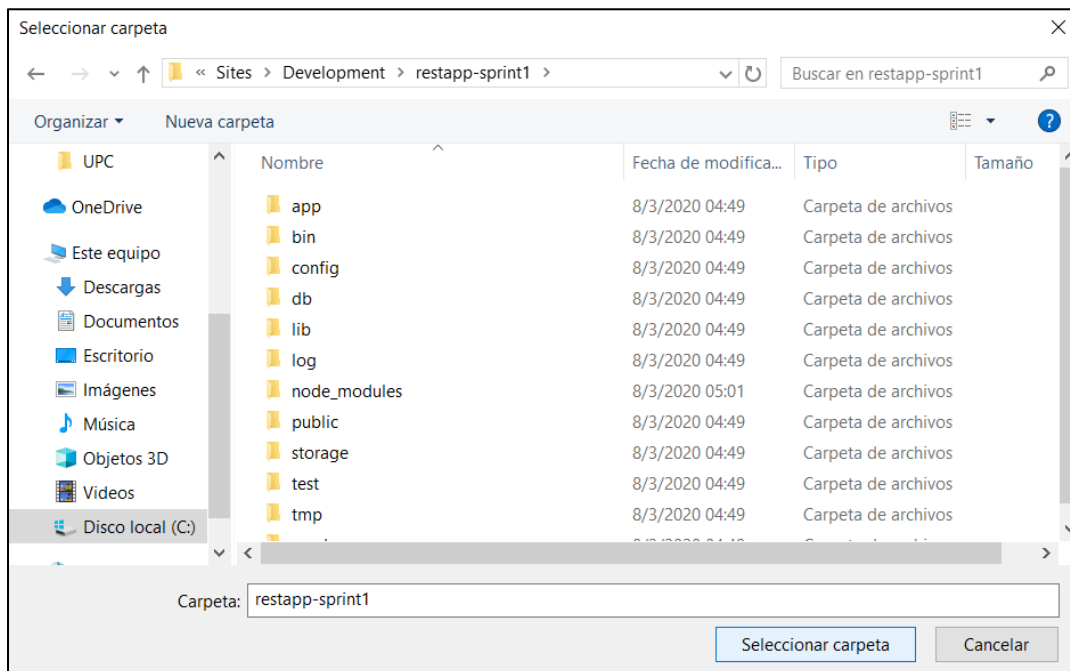

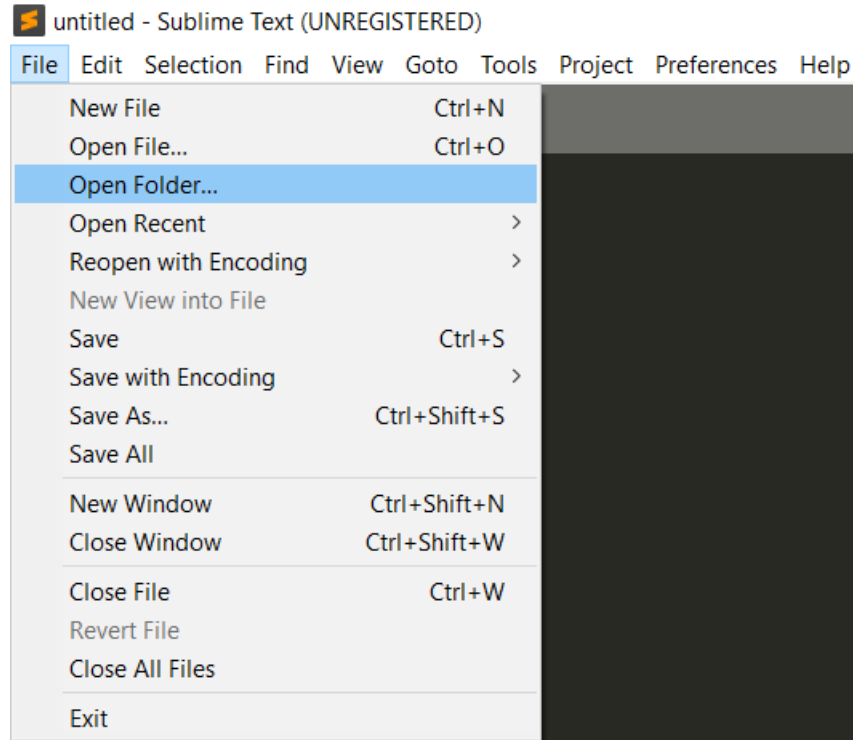

Este equipo > Disco local (C:) > Sites > Development > restapp-sprint1					
	Nombre	Fecha de modifica...	Tipo	Tamaño	
Directorios	app	7/3/2020 03:20	Carpeta de archivos		
	bin	7/3/2020 03:20	Carpeta de archivos

## 11) Agregación de Gemas

Ahora, agregamos Gemas.

En Sublime, abrir la carpeta del proyecto:

 untitled (restapp-sprint1) - Sublime Text (UNREGISTERED)

File Edit Selection Find View Goto Tools Project Preferences Help

## FOLDERS

## 12) Instalando y configurando las gemas

Ejecutamos en la consola el siguiente comando:

```
# bundle
```

```
Símbolo del sistema
C:\Sites\Development\restapp-sprint1>bundle

Using xpath 3.2.0
Using capybara 3.31.0
Using childprocess 3.0.0
Using jbuilder 2.10.0
Using method_source 0.9.2
Using thor 1.0.1
Using railties 6.0.2.1
Using jquery-rails 4.3.5
Using puma 4.3.3
Using rack-proxy 0.6.5
Using sprockets 4.0.0
Using sprockets-rails 3.2.1
Using rails 6.0.2.1
Using rubyzip 2.2.0
Using sassc 2.2.1 (x64-mingw32)
Using tilt 2.0.10
Using sassc-rails 2.1.2
Using sass-rails 6.0.0
Using selenium-webdriver 3.142.7
Using sqlite3 1.4.2
Using turbolinks-source 5.2.0
Using turbolinks 5.2.1
Using tzinfo-data 1.2019.3
Using web-console 4.0.1
Using webdrivers 4.2.0
Using webpacker 4.2.2
Bundle complete! 17 Gemfile dependencies, 78 gems now installed.
Use `bundle info [gemname]` to see where a bundled gem is installed.
C:\Sites\Development\restapp-sprint1>
```

Ahora, instalamos los components de webpacker. Ejecutar:

```
# bundle exec rake webpacker:install
```

```
Símbolo del sistema

### 13) Generación de controller y views para vistas estáticas

Vamos a adicionar a nuestro proyecto una vista **index**, una para la sección **About Us**, otra para **Frequently Asked Questions (FAQ)**, una sección para **Terms of Service (TOS)** y finalmente, una vista para **Contact Us**. Para ello, en la consola y ubicados en la carpeta raíz del proyecto, escribimos el siguiente comando:

```
# rails g controller pages index about_us faq tos contact_us
```

```
Símbolo del sistema
08/03/2020 05:01 <DIR> .
08/03/2020 05:01 <DIR> ..
08/03/2020 04:49          9 .browserslistrc
08/03/2020 04:49        777 .gitignore
08/03/2020 04:49         11 .ruby-version
08/03/2020 04:49 <DIR> app
08/03/2020 04:49    1,722 babel.config.js
08/03/2020 04:49 <DIR> bin
08/03/2020 04:49 <DIR> config
08/03/2020 04:49       130 config.ru
08/03/2020 04:49 <DIR> db
08/03/2020 14:31    1,829 Gemfile
08/03/2020 14:50   5,774 Gemfile.lock
08/03/2020 04:49 <DIR> lib
08/03/2020 04:49 <DIR> log
08/03/2020 05:01 <DIR> node_modules
08/03/2020 05:01       324 package.json
08/03/2020 04:49       224 postcss.config.js
08/03/2020 04:49 <DIR> public
08/03/2020 04:49       227 Rakefile
08/03/2020 04:49       374 README.md
08/03/2020 04:49 <DIR> storage
08/03/2020 04:49 <DIR> test
08/03/2020 04:49 <DIR> tmp
08/03/2020 04:49 <DIR> vendor
08/03/2020 05:01   330,070 yarn.lock
      12 File(s)      341,471 bytes
      14 Dir(s)  924,915,302,400 bytes free

C:\Sites\Development\restapp-sprint1>rails g controller pages index about_us faq tos contact_us
```

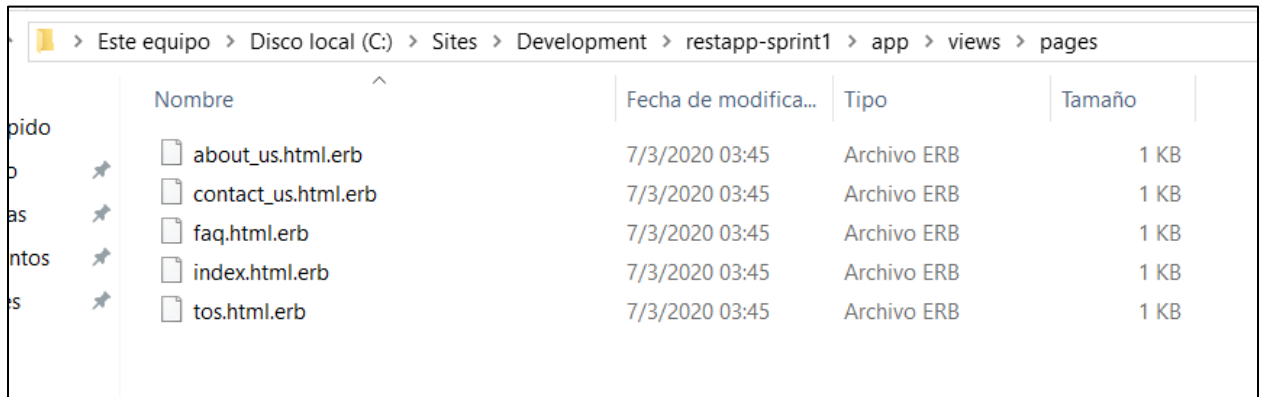

```
Símbolo del sistema
08/03/2020 04:49 <DIR> tmp
08/03/2020 04:49 <DIR> vendor
08/03/2020 05:01   330,070 yarn.lock
      12 File(s)      341,471 bytes
      14 Dir(s)  924,915,302,400 bytes free

C:\Sites\Development\restapp-sprint1>rails g controller pages index about_us faq tos contact_us
      create  app/controllers/pages_controller.rb
      route  get 'pages/index'
get 'pages/about_us'
get 'pages/faq'
get 'pages/tos'
get 'pages/contact_us'
      invoke  erb
      create  app/views/pages
      create  app/views/pages/index.html.erb
      create  app/views/pages/about_us.html.erb
      create  app/views/pages/faq.html.erb
      create  app/views/pages/tos.html.erb
      create  app/views/pages/contact_us.html.erb
      invoke  test_unit
      create  test/controllers/pages_controller_test.rb
      invoke  helper
      create  app/helpers/pages_helper.rb
      invoke  test_unit
      invoke  assets
      invoke  scss
      create  app/assets/stylesheets/pages.scss

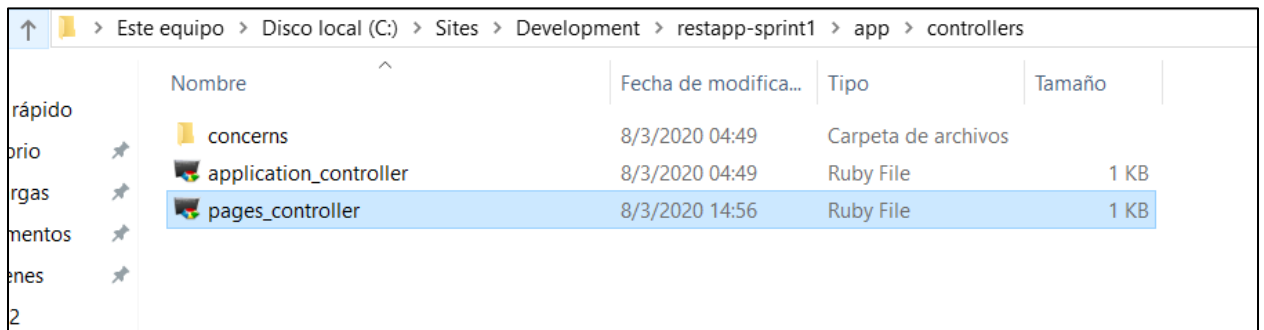

C:\Sites\Development\restapp-sprint1>
```

Comprobamos que se genera una carpeta **app/views/pages** con los archivos **index.html.erb**, **about\_us.html.erb**, **faq.html.erb**, **tos.html.erb** y **contact\_us.html.erb**. Adicionalmente se crea

entre otros, el archivo **app/controllers/pages\_controller.erb** que contendrá la clase **PagesController**.

> Este equipo > Disco local (C:) > Sites > Development > restapp-sprint1 > app > views > pages				
	Nombre	Fecha de modifica...	Tipo	Tamaño

	Nombre	Fecha de modifica...	Tipo	Tamaño
	concerns	8/3/2020 04:49	Carpeta de archivos	
	application_controller	8/3/2020 04:49	Ruby File	1 KB
	pages_controller	8/3/2020 14:56	Ruby File	1 KB

## 14) Estableciendo la ruta raíz para el proyecto

Modificamos el archivo **config/routes.rb**. En él reemplazamos la línea:

```
get 'pages/index'
```

por:

```
root 'pages#index'
```

C:\Sites\Development\restapp-sprint1\config\routes.rb (restapp-sprint1) - Sublime Text (UNREGISTERED)

File Edit Selection Find View Goto Tools Project Preferences Help

**FOLDERS**

- restapp-sprint1
  - app
  - bin
  - config
    - environments
    - initializers
    - locales
    - webpack
      - application.rb
      - boot.rb
      - cable.yml
      - credentials.yml.enc
      - database.yml
      - environment.rb
      - master.key
      - puma.rb
      - routes.rb
      - storage.yml
      - webpacker.yml

```
1 Rails.application.routes.draw do
2   get 'pages/index'
3   get 'pages/about_us'
4   get 'pages/faq'
5   get 'pages/tos'
6   get 'pages/contact_us'
7   # For details on the DSL available within
8   end
9
```

C:\Sites\Development\restapp-sprint1\config\routes.rb (restapp-sprint1) - Sublime Text (UNREGISTERED)

File Edit Selection Find View Goto Tools Project Preferences Help

**FOLDERS**

- restapp-sprint1
  - app
  - bin
  - config
    - environments
    - initializers
    - locales
    - webpack
      - application.rb
      - boot.rb
      - cable.yml
      - credentials.yml.enc
      - database.yml
      - environment.rb
      - master.key
      - puma.rb
      - routes.rb
      - storage.yml
      - webpacker.yml

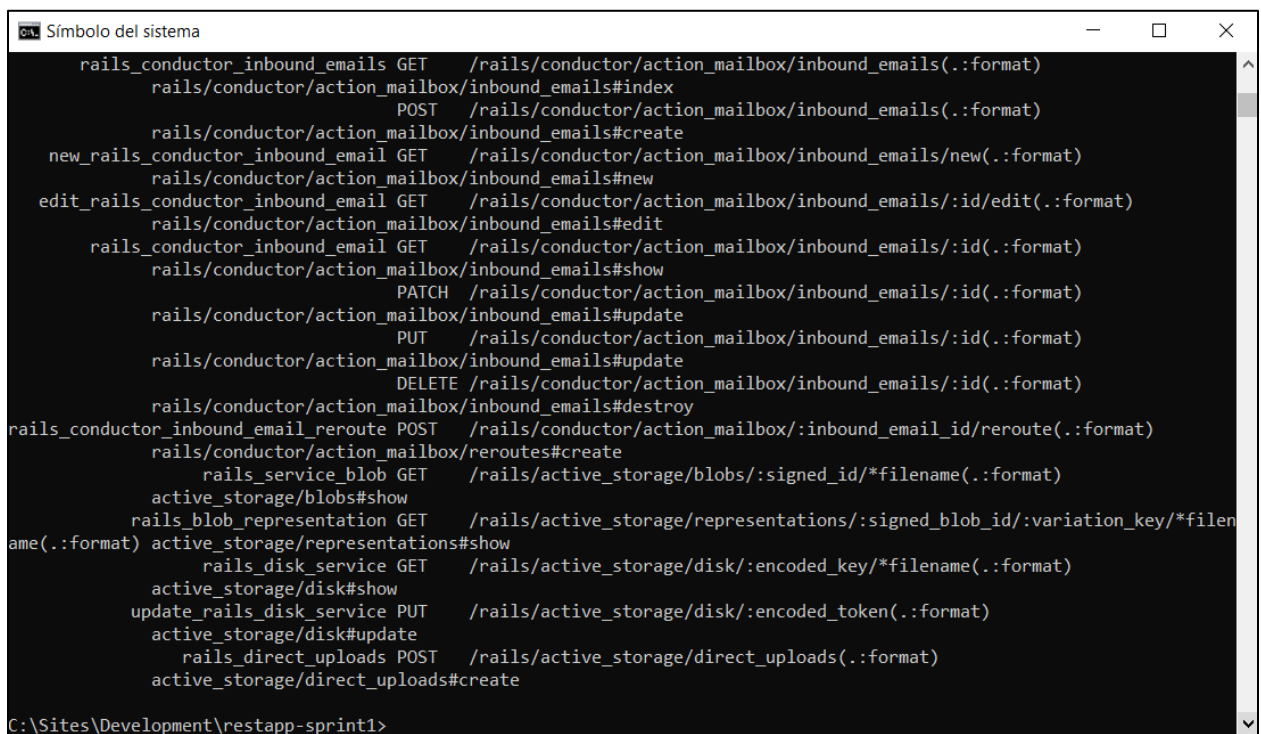

```
1 Rails.application.routes.draw do
2   root 'pages#index'
3   get 'pages/about_us'
4   get 'pages/faq'
5   get 'pages/tos'
6   get 'pages/contact_us'
7   # For details on the DSL available
8   end
9
```

Con esto indicamos al **routing process** de la aplicación, que cuando llegue un request con la ruta raíz de la aplicación (/), dicho request será procesado por el **controller home** y por su **action** con el nombre **index**. Guardamos el archivo para preservar los cambios.

Luego en la consola ejecutamos el comando:

```
# rake routes
```

Observaremos que se presenta una ruta root, junto con rutas para las vistas creadas las cuales inician con `pages_`.

```

## 15) Creando un partial

Ahora creamos un partial para evitar redundancia del código en el Application layout

En la carpeta raíz del proyecto, ubicados en la consola de comandos, escribimos la siguiente instrucción:

```
# echo > app/views/layouts/_menu.html.erb
```

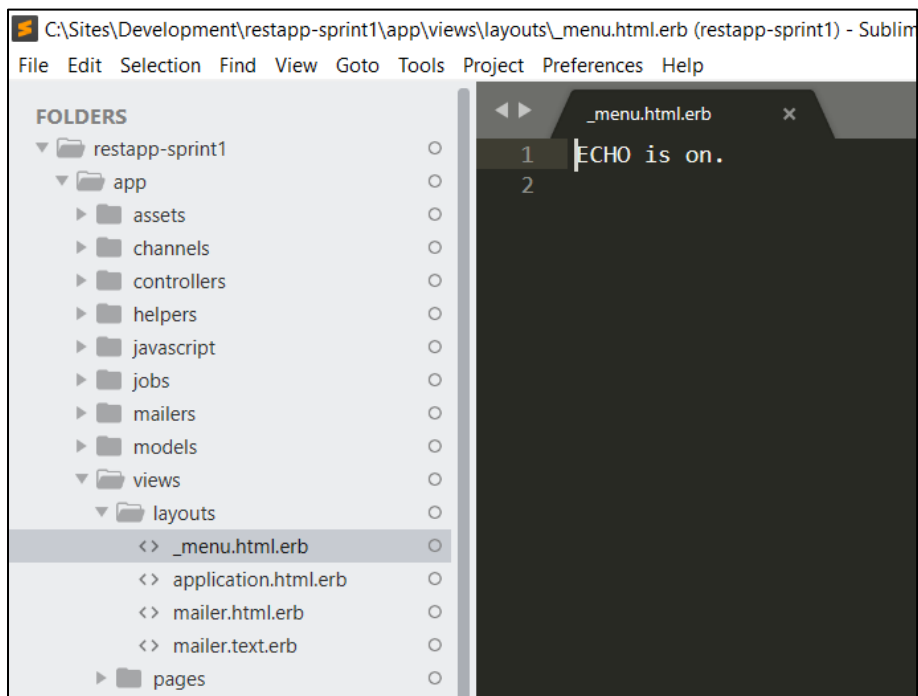

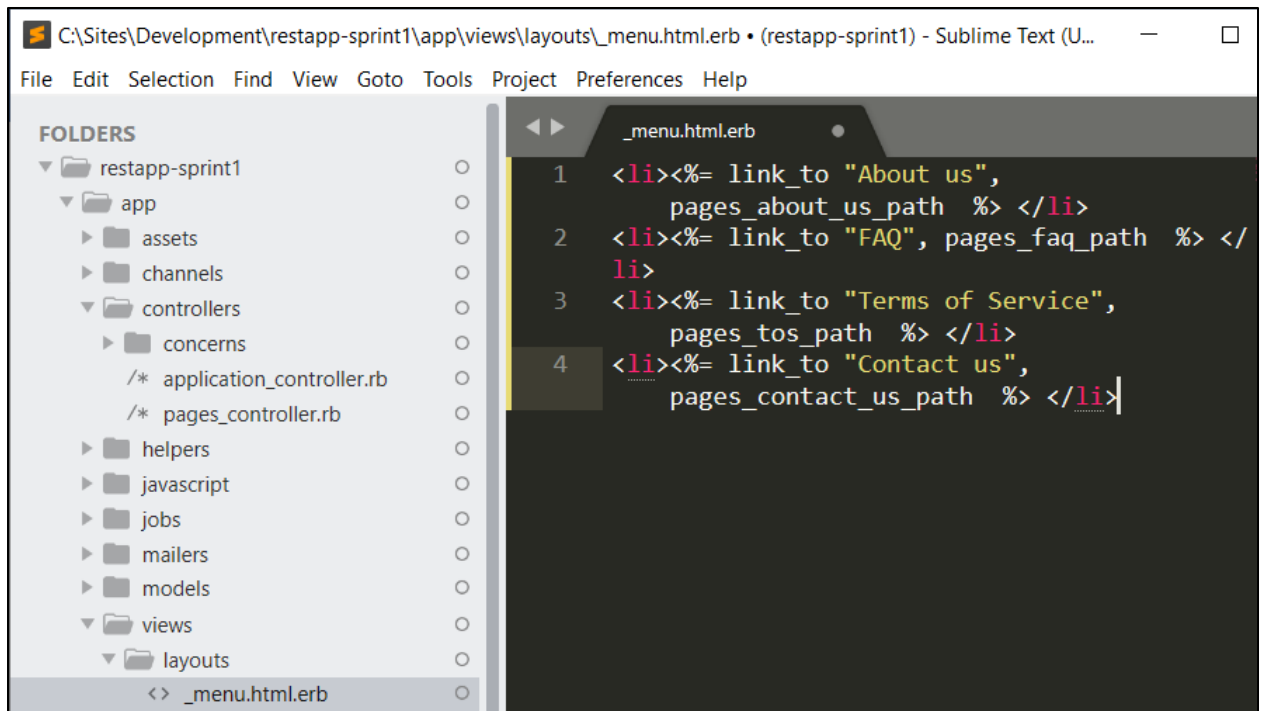

```
Símbolo del sistema
C:\Sites\Development\restapp-sprint1>echo > app\views\layouts\_menu.html.erb
C:\Sites\Development\restapp-sprint1>
```

Este comando crea el parcial 'layouts/menu'. Procedemos a abrir este archivo para edición, agregando las siguientes líneas, en lugar de su contenido actual:

```
<li><%= link_to "About us", pages_about_us_path %> </li>
<li><%= link_to "FAQ", pages_faq_path %> </li>
<li><%= link_to "Terms of Service", pages_tos_path %> </li>
<li><%= link_to "Contact us", pages_contact_us_path %> </li>
```

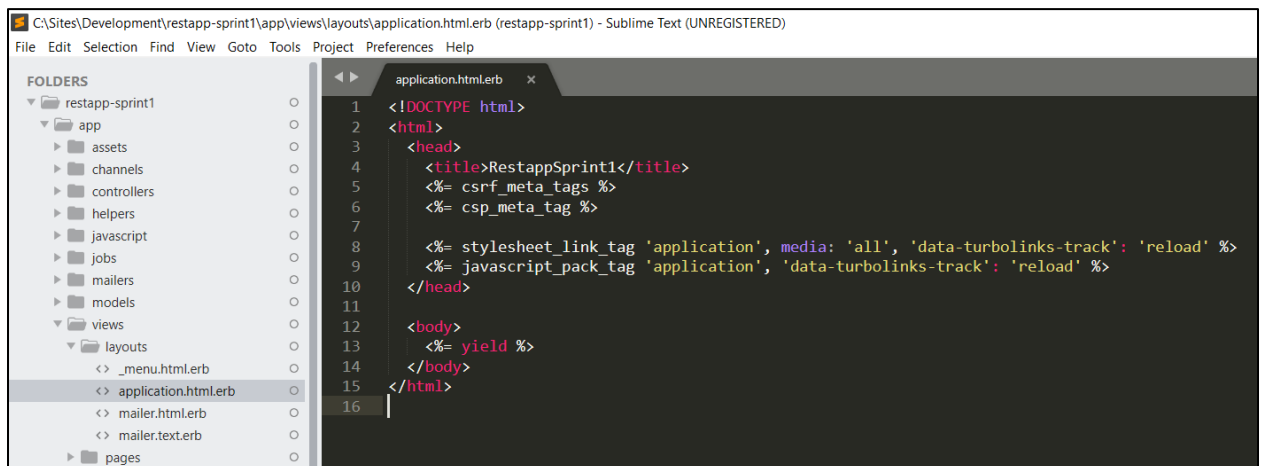

```
C:\Sites\Development\restapp-sprint1\app\views\layouts\_menu.html.erb • (restapp-sprint1) - Sublime Text (U...

1 <!DOCTYPE html>
2 <html>
3   <head>
4     <title>RestappSprint1</title>
5     <%= csrf_meta_tags %>
6     <%= csp_meta_tag %>
7
8     <%= stylesheet_link_tag 'application', media: 'all', 'data-turbolinks-track': 'reload' %>
9     <%= javascript_pack_tag 'application', 'data-turbolinks-track': 'reload' %>
10  </head>
11
12  <body>
13    <%= yield %>
14  </body>
15 </html>
16
```

En este archivo, ubicamos las líneas

```
<body>
```

```
<%= yield %>
```

```
</body>
```

Luego de ello, reemplazamos `<%= yield %>` por el siguiente código:

```
<div class="navbar navbar-default navbar-static-top">

  <div class="container">

    <button type="button" class="navbar-toggle" data-toggle="collapse" data-target=".navbar-responsive-collapse">

      <span class="icon-bar"></span>

      <span class="icon-bar"></span>

      <span class="icon-bar"></span>

    </button>

    <a class="navbar-brand" href=<%= root_path %>>Wok & Wine</a>

    <div class="navbar-collapse collapse navbar-responsive-collapse">

      <ul class="nav navbar-nav">

        <%= render 'layouts/menu' %>

      </ul>

    </div>

  </div>

</div>

<div class="container">

  <div class="row">

    <div class="col-lg-9">

      <%= yield %>

    </div>

    <div class="col-lg-3">

      <div class="well sidebar-nav">

        <h3>Sidebar</h3>

        <ul class="nav nav-list">

          <%= render "layouts/menu" %>

        </ul>

      </div>

    </div>

  </div>

</div>
```

```
</div>

</div>

</div>
```

Además, dentro de la sección **Head**, agregamos los siguientes **CDN**:

```
<!-- Latest compiled and minified CSS -->

<link rel="stylesheet"
href="https://maxcdn.bootstrapcdn.com/bootstrap/3.3.7/css/bootstrap.min.css"

35       </div>
36     </div>
37     <div class="container">

```

## 16) Adicionar un layout para las vistas internas

A continuación, vamos a modificar la experiencia de tal forma que las vistas internas (about\_us, faq, tos, contact\_us) tengan un layout distinto del layout por defecto. Para ello iniciamos con lo siguiente:

Copiar el archivo de la ruta:

app/views/layouts/application.html.erb

como:

app/views/layouts/internal.html.erb

Este equipo > Disco local (C:) > Sites > Development > restapp-sprint1 > app > views > layouts				
	Nombre	Fecha de modifica...	Tipo	Tamaño
ápido	_menu.html.erb	8/3/2020 15:21	Archivo ERB	1 KB
io	application.html.erb	8/3/2020 15:53	Archivo ERB	2 KB
gas	internal.html.erb.erb	8/3/2020 15:53	Archivo ERB	2 KB
entos	mailer.html.erb	8/3/2020 04:49	Archivo ERB	1 KB
es	mailer.text.erb	8/3/2020 04:49	Archivo ERB	1 KB

Con esto hemos creado un nuevo layout con el nombre **internal**, hasta ahora con el mismo contenido que application layout. Abrimos el archivo internal.html.erb para edición. Ubicamos la siguiente línea de código:

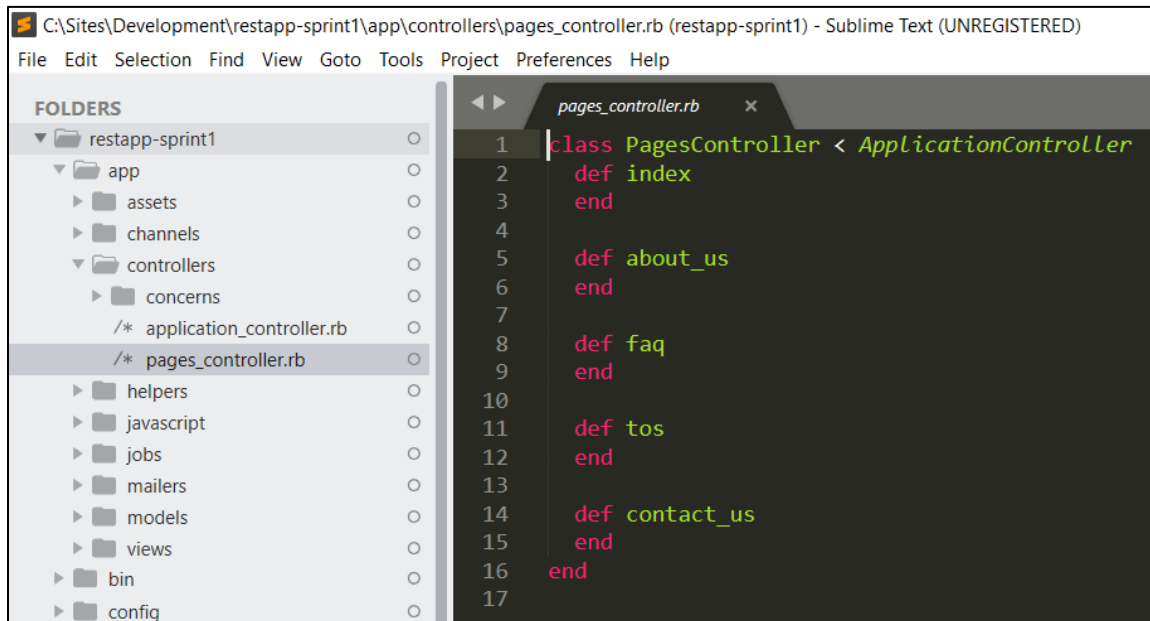

```
<%= yield %>
```

Sobre dicha línea adicionamos el siguiente bloque de código (**no borrar** el `<%= yield %>` existente):

```
<h1><%= yield :header_title %> <small><%= yield :header_sub_title %></small></h1>
```

Esto permitirá contar con un encabezado que contenga título y subtítulo como zonas variables, además de aplicar el estilo **page-header** de **Bootstrap**. Guardamos el archivo **internal.html.erb**.

Nos corresponde ahora indicar al **controller** que aplique el **layout** para las vistas internas (about\_us, faq, tos, contact\_us). Para ello, abrimos para edición el archivo **app/controllers/pages\_controller.rb**.

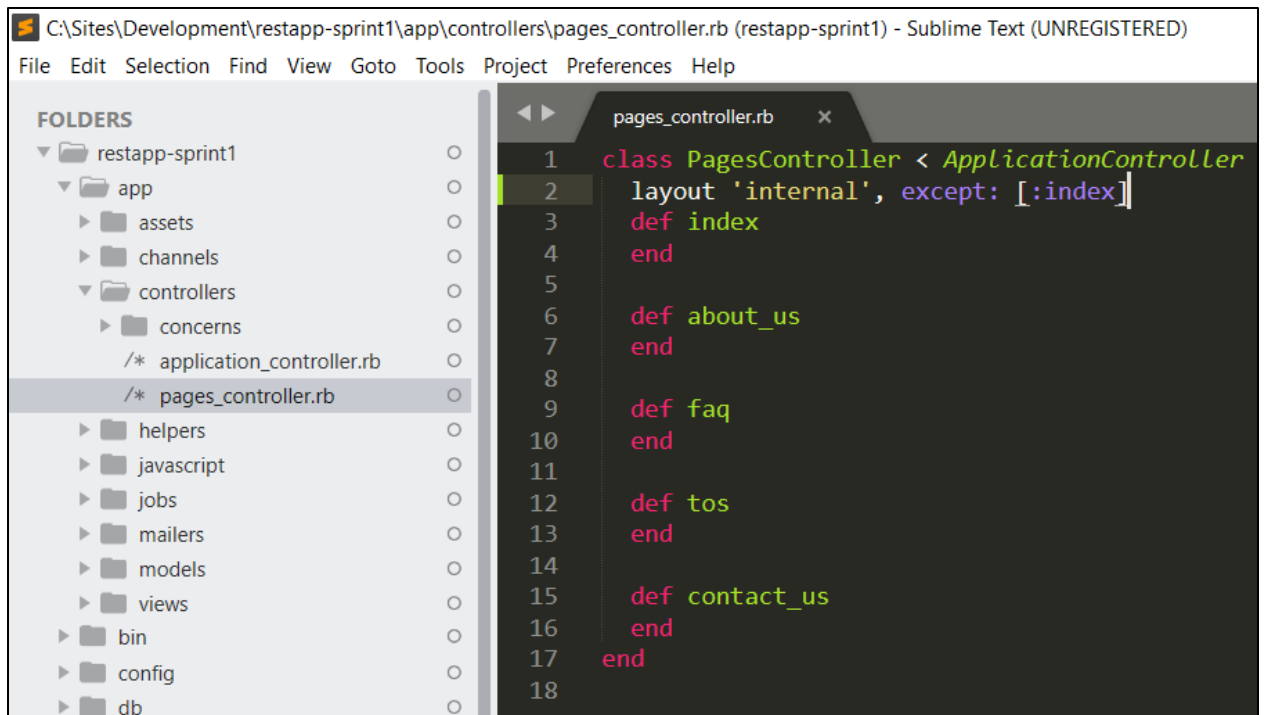

```
1 class PagesController < ApplicationController
2   def index
3   end
4
5   def about_us
6   end
7
8   def faq
9   end
10
11  def tos
12  end
13
14  def contact_us
15  end
16 end
17
```

Debajo de la instrucción 'class' adicionamos la siguiente línea antes de la declaración de los métodos.

`layout 'internal', except: [:index]`

De esta forma el código de **pages\_controller.rb** se apreciará de la siguiente manera:

```
C:\Sites\Development\restapp-sprint1\app\controllers\pages_controller.rb (restapp-sprint1) - Sublime Text (UNREGISTERED)
File Edit Selection Find View Goto Tools Project Preferences Help

FOLDERS
▼ restapp-sprint1
  ▼ app

    ► channels
    ▼ controllers
      ► concerns
      /* application_controller.rb
      /* pages_controller.rb
    ► helpers
    ► javascript
    ► jobs
    ► mailers
    ► models
    ► views
  ► bin
  ► config
  ► db

1 class PagesController < ApplicationController
2   layout 'internal', except: [:index]
3
4   def index
5
6   def about_us
7   end
8
9   def faq
10  end
11
12  def tos
13  end
14
15  def contact_us
16  end
17 end
18
```

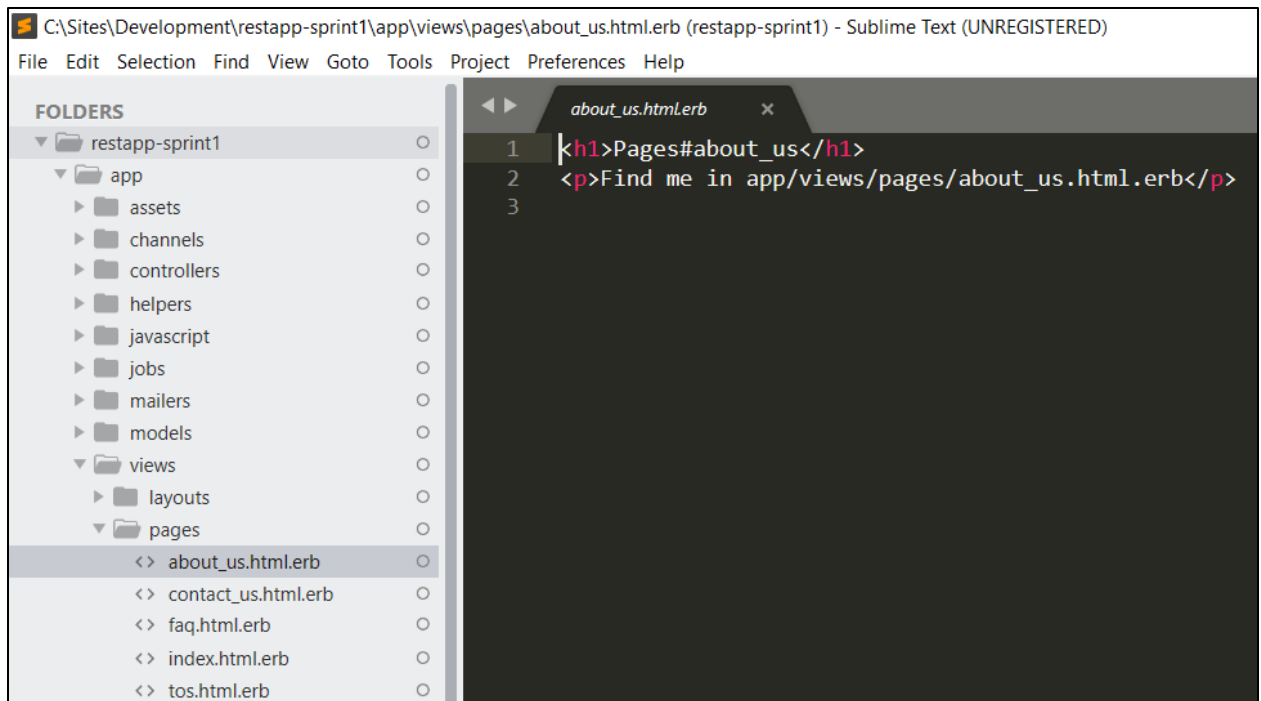

Guardamos el archivo **pages\_controller.rb**.

## 17) Modificación de las vistas internas

### a. Modificando 'About us'

Abrimos para edición el archivo `app/views/pages/about_us.html`.

Reemplazamos el código por defecto con el siguiente bloque de instrucciones:

```
<%= content_for :header_title do %>
```

```
  About us
```

```
<% end %>
```

```
<%= content_for :header_sub_title do %>
```

```
  Who we are
```

```
<% end %>
```

```
<h2>Our history</h2>
```

```
  <p>Opened in 1999, Restaurant Wok & Wine is a casual fine dining restaurant, offering  
  eclectic American cuisine and warm hospitality in a rustic historically preserved building. A high,  
  open beam ceiling, exposed brick and concrete floors display the original space, while an open  
  kitchen, banquette seating and gentle lighting contribute to an intimate and contemporary  
  feel.</p>
```

```
  <p>We specialize in three course tasting menus, allowing the customer to select any three  
  dishes from the menu for $55 per person. A la Carte dining is also available.</p>
```

```
  <p>Our food is sourced from top quality seasonal ingredients, featuring a high percentage of  
  local and organic products. Our menu changes every six to eight weeks, offering a mix of new and
```

signature dishes. We consider Wok & Wine to be a truly “American” restaurant honoring many different cooking traditions and interpreting them with our unique creative vision.</p>

<p>Inspired by great artisanal foods of the world. We craft all of our stocks, sauces, breads, pastries and ice creams from scratch on a daily basis. We also strive to support other artisanal producers when purchasing wine, cheese, honey and many other ingredients.</p>

<p>Our approach towards the operation of the restaurant is truly cooperative. We believe that every single member of our staff is integral to our success and pay sustainable living wages to all employees, offering medical benefits and profit sharing to all full time employees.</p>

## <h2>Who lead us</h2>

<p>Our current leaders of kitchen and service at Wok & Wine:</p>

<ul>

<li>Alexander Roberts – Executive Chef / CEO / Proprietor</li>

<li>Mike Berger / General Manager</li>

<li>Lucas Rosenbrook– Chef / Kitchen Manager</li>

<li>James Hirdler – Service Supervisor / Wine Director</li>

<li>Hannah Drehmann – Event Coordinator</li>

<li>Carrie Riggs – Pastry Chef</li>

</ul>

## <h2>Alexander Roberts</h2>

<p>Alexander Roberts was born in Buffalo, New York, but his formative years were spent here in Minneapolis. He started working in local kitchens in high school and through college. In the early 1990’s, Alex moved to New York City, where he attended the French Culinary Institute. After graduation, Alex gained experience in several renowned New York restaurants, including Gramercy Tavern, Bouley, and the Union Square Cafe.</p>

<p>Alex returned to Minneapolis and opened Restaurant Wok & Wine in 1999. He has been able to advance his commitment to organic, sustainably produced food at Wok & Wine and has received numerous accolades in the process.</p>

<p>Alex opened Brasa Premium Rotisserie in 2007, also committed to organic, sustainably produced food. For more details about Brasa please call 612-379-3030 or visit their website at [www.brasa.us](http://www.brasa.us).</p>

```
1 <%= content_for :header_title do %>
2   About us
3 <% end %>
4 <%= content_for :header_sub_title do %>
5   who we are
6 <% end %>
7 <h2>Our history</h2>
8 <p><= content_for :header_title do %>
9   About us
10  <% end %>
11 <%= content_for :header_sub_title do %>
12   who we are
13 <% end %>
14 <h2>Our history</h2>
15 <p><= content_for :header_title do %>
16   About us
17  <% end %>
18 <%= content_for :header_sub_title do %>
19   who we are
20 <% end %>
21 <h2>Our history</h2>
22 <p><= content_for :header_title do %>
23   About us
24  <% end %>
25 <%= content_for :header_sub_title do %>
26   who we are
27 <% end %>
```

Guardamos el archivo `about_us.html.erb`.

## b. Modificando 'FAQ'

Abrimos para edición el archivo `faq.html.erb`:

```
1 <h1>Pages#faq</h1>
2 <p>Find me in app/views/pages/faq.html.erb</p>
3
```

Remplazamos el código existente por lo siguiente:

<%= content\_for :header\_title do %>

Frequently Asked Questions

<% end %>

<%= content\_for :header\_sub\_title do %>

Your doubts, clarified

<% end %>

<p><strong>What hours are the Restaurant open for dining?</strong></p>

<p>Lunch Hours: Monday through Friday | 11:30am to 2:00pm, and Dinner Hours: Tuesday through Saturday | 5:30pm to 9:00pm. Our Restaurant lounge is always open during our dining hours.</p>

<p><strong>Do you have to be a member to dine at Wok & Wine ?</strong></p>

<p>We welcome non-members to try the restaurant for lunch or dinner on a one time basis, but we do require membership for continuous usage and always give priority seating to our members.</p>

<p><strong>Do Wok & Wine members get a discount?</strong></p>

<p>Yes, all Wok & Wine members receive a 10% discount on food and beverage purchases in the restaurant.</p>

<p><strong>Are there any blackout dates for the restaurant?</strong></p>

<p>Our online calendar (click here) is always kept up to date with the latest sold out dates and times. The restaurant is typically closed the week after the October and May races for post-race clean up. Wok & Wine is not open on Sundays except for special occasions.</p>

<p><strong>Should I make a reservation?</strong></p>

<p>Yes, we recommend making a reservation in order to give you the best possible service and ensure that we have your desired time available. We do accept walk-ins unless we are sold out for a private function.</p>

<p><strong>What is the easiest way to make reservations?</strong></p>

<p>To make a reservation, please call the main restaurant line at 704-455-3216. You can also click here to make an online reservation request.</p>

<p><strong>What is the dress code for the restaurant?</strong></p>

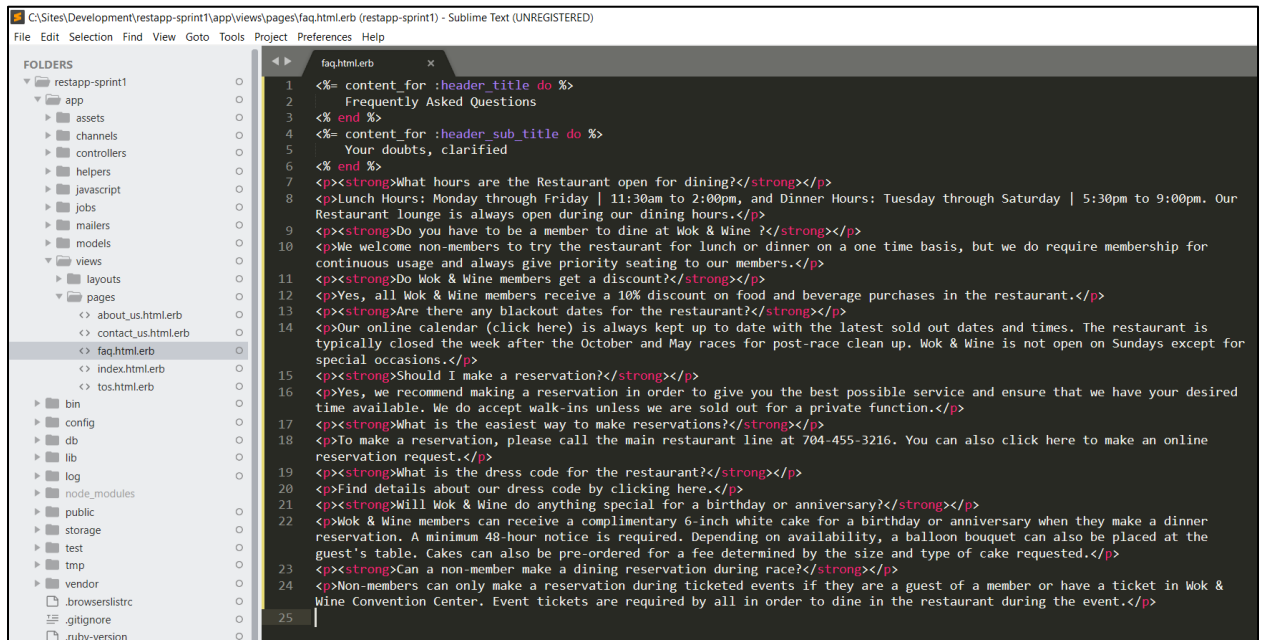

<p>Find details about our dress code by clicking here.</p>

<p><strong>Will Wok & Wine do anything special for a birthday or anniversary?</strong></p>

<p>Wok & Wine members can receive a complimentary 6-inch white cake for a birthday or anniversary when they make a dinner reservation. A minimum 48-hour notice is required. Depending on availability, a balloon bouquet can also be placed at the guest's table. Cakes can also be pre-ordered for a fee determined by the size and type of cake requested.</p>

<p><strong>Can a non-member make a dining reservation during race?</strong></p>

<p>Non-members can only make a reservation during ticketed events if they are a guest of a member or have a ticket in Wok & Wine Convention Center. Event tickets are required by all in order to dine in the restaurant during the event.</p>

Your submission of any such comments shall constitute an assignment to Alex's Place of all worldwide rights, titles and interests in all copyrights and other intellectual property rights in the comments. Alex's Place will be entitled to use, reproduce, disclose, publish and distribute any material you submit for any purpose whatsoever, without restriction and without compensating you in any way. For this reason, we ask that you not send us any comments that you do not wish to assign to us, including any confidential information or any original creative materials such as stories, product ideas, computer code or original artwork.</p>

<p>User Submitted Content including, but not limited to, text, photos, or video submitted in connection with Gift, E-Cards, E-Vites, Forward-to-a-Friend messages or any other messaging service.</p>

<p>The Alex's Place message services available to our guests are subject to the following guidelines. Out of respect for all of our guests, we ask that you do not use obscene, profane or threatening language in messages. In addition, we ask that you do not submit or post photos,

videos or other media that include obscene, profane or threatening images. Examples of the kinds of conduct or content that are prohibited in user submitted content include:</p>

<ul>

<li>The transmission of any content that could violate, or could facilitate the violation of, any applicable law.</li>

<li>The transmission of any content that is profane, libelous, defamatory, obscene, pornographic, indecent, lewd, harassing, threatening, harmful, invasive of privacy or publicity rights, abusive, inflammatory or otherwise objectionable.</li>

<li>The impersonation of any person or entity in any part of a gift message.</li>

</ul>

<p>You are solely responsible for the content of any messages and/or images you submit and Alex's Place assumes no liability for any content submitted by you. We may, but are not obligated to, restrict or remove any and all content from a message that we determine in our sole discretion violates these guidelines or is otherwise harmful to us, or any third party. Alex's Place reserves the right to purge the content you provide after 90 days of creation. Any content you submit is for non-commercial use only. You must provide your actual e-mail address in order to send your content.</p>

<p>Any content you submit will be routed through the Internet and you understand and acknowledge that you have no expectation of privacy with regard to any content you submit.</p>

<h2>Discounts; Limitations on Quantity</h2>

<p>We do offer additional discounts on large orders of a single item. Please inquire directly. We reserve the right to limit quantities.</p>

<h2>Return Policy</h2>

<p>If you are not fully satisfied with your purchase you may return it with the original packing receipt within 30 days of the order date. Additional restrictions apply.</p>

<p>Gift Certificates returned to Alex's Place shall be in like new condition and unopened. The refund will be issued once Alex's Place confirms that the gift certificate is in the same condition that you received it and processes the return through Alex's Place's system.</p>

<p>For gift certificates returned within 30 days, Alex's Place will reimburse the cost of the gift certificate, and the cost of initial shipping. Alex's Place will not reimburse the cost of shipping to return the gift certificate to Alex's Place.</p>

<p>If your return is shipped after the timeframe indicated above or without a packing slip, we regret that we cannot issue a refund or send the merchandise back to you.</p>

<p>The risk of loss and title to items pass to the purchaser upon delivery.</p>

<h2>Disclaimers general</h2>

<p>Alex's place reserves the right to refuse any sale.</p>

<p>The alexsribs.com website is operated by Alex's Place on an "as is", "as available" basis, without representations or warranties of any kind. To the full extent permitted by law, Alex's Place disclaims any and all representations and warranties with respect to this site and its contents, whether express, implied, or statutory.</p>

<p>Without limiting the foregoing, Alex's Place does not represent or warrant that the information on this website is accurate, complete, reliable, useful, timely or current or that this website will operate without interruption or error.</p>

<p>Alex's Place does not endorse nor make any warranties or representations about the options or other service or data you may access, download or use as a result of the use of the information contained on this website, or about any website you may access through this website. Links to other sites are provided for convenience only. You need to make your own decisions regarding your interactions or communications with any other website.</p>

<p>Alex's Place makes no representation that content provided on this website is applicable or appropriate for use in locations outside of the United States.</p>

<p>Alex's Place assumes no risk or responsibility for your use of any of the content provided on this website.</p>

## <h2>Limitation of Liability</h2>

<p>Under no circumstances, shall Alex's Place or any of their employees, directors, officers, agents, vendors or suppliers be liable for any direct or indirect losses or damages arising out of or in connection with the use of or inability to use this website.</p>

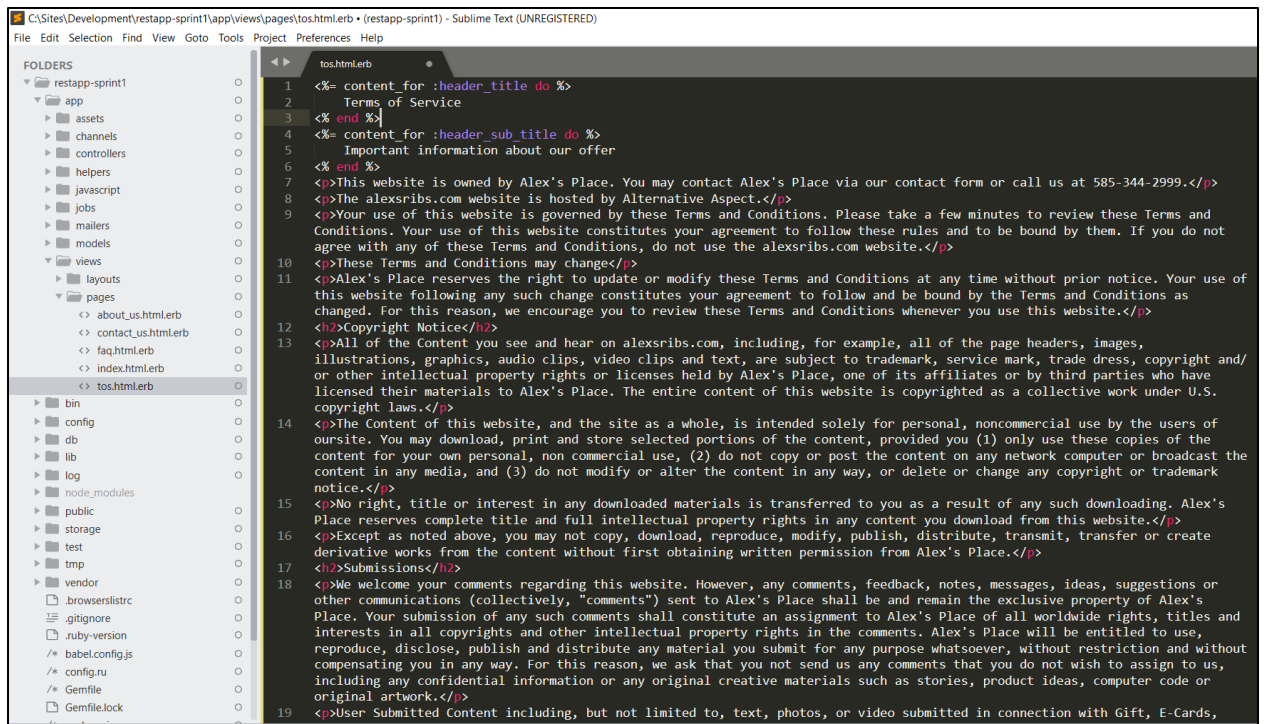

<p>This is a comprehensive Limitation of Liability that applies to all losses and damages of any kind (whether general, special, consequential, incidental, exemplary or otherwise, including, without limitation, loss of data, income or profits), whether in contract, negligence or other tortious action, even if an authorized representative of alex's place has been advised of or should have known of the possibility of such damages.</p>

<p>If you are dissatisfied with this website or any content on the site, or with these terms and conditions, your sole and exclusive remedy is to discontinue using this website. You acknowledge, by your use of this website, that your use of the site is at your sole risk.</p>

<p>Applicable law may not allow the limitation of liability set forth above, so this limitation of liability may not apply to you. If any part of this Limitation on Liability is found to be invalid or unenforceable for any reason, then the aggregate liability of Alex's Place under such circumstances for liabilities that otherwise would have been limited shall not exceed one hundred dollars (\$100).</p>

## <h2>Enforcement of terms and conditions</h2>

<p>By accessing and using the alexsribs.com website, you agree that your access to and use of this website is subject to these terms and conditions, as well as all applicable laws, as governed and interpreted pursuant to the laws of the state of North Carolina, United States of America.</p>

contact_us.html.erb
1 <h1>Pages#contact_us</h1>
2 <p>Find me in app/views/pages/contact_us.html.erb</p>
3
```

Reemplazamos el contenido por:

```
<%= content_for :header_title do %>

  Contact us

<% end %>

<%= content_for :header_sub_title do %>

  Find us here

<% end %>

<div id="maps">

  <%= render 'map' %>

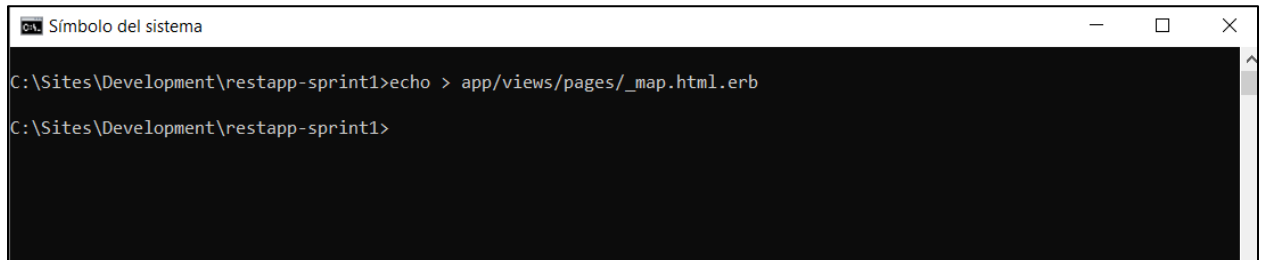

</div>
```

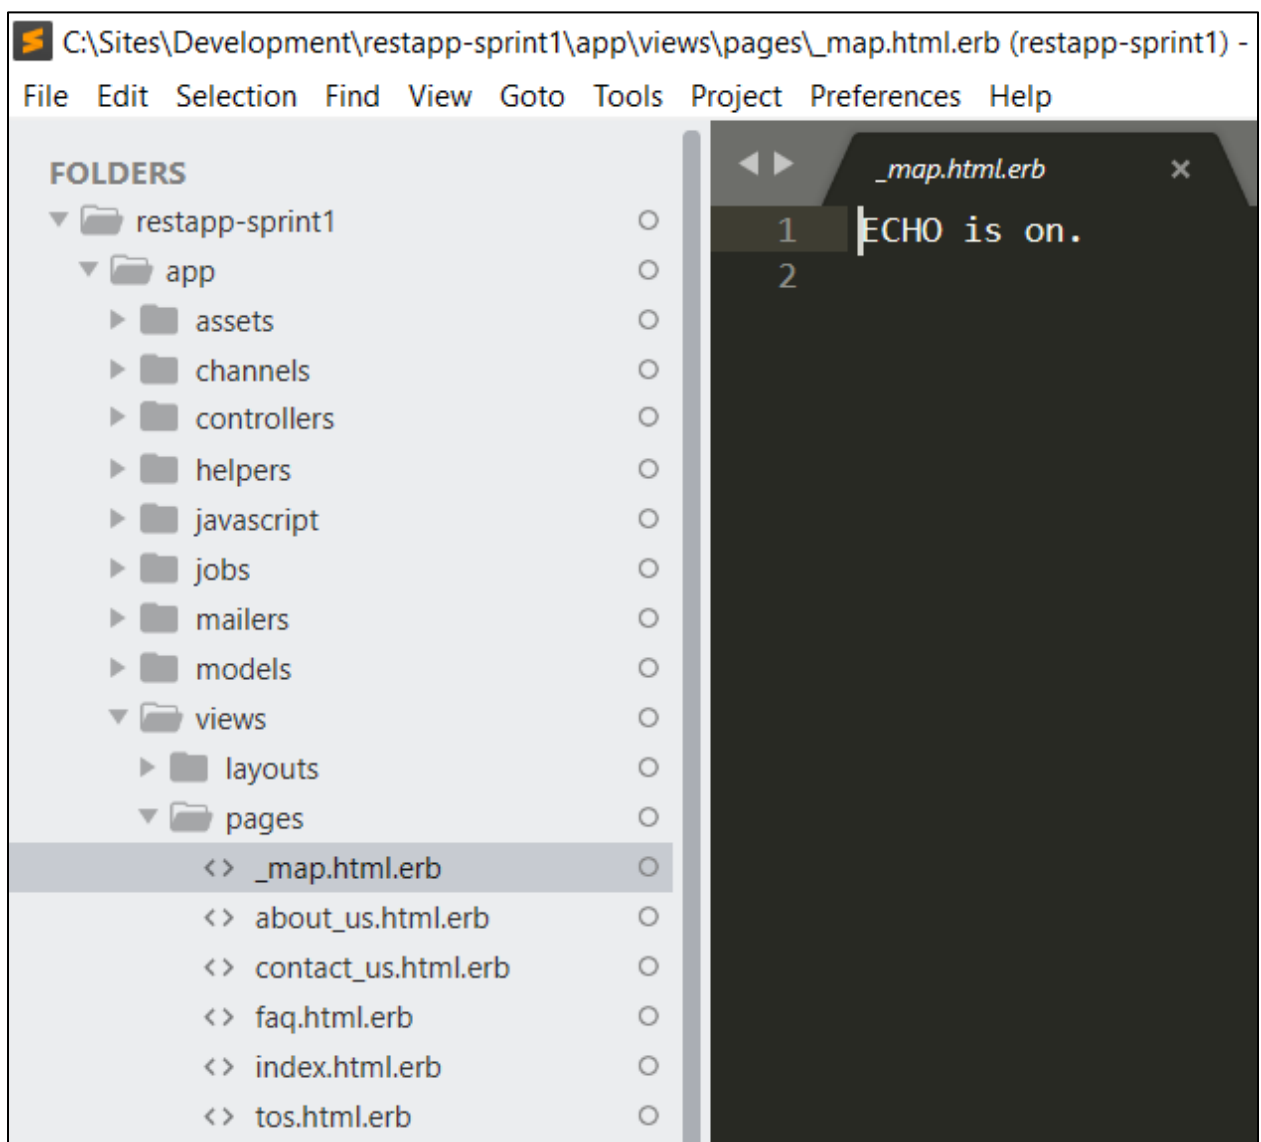

Guardamos el archivo **contact\_us.html.erb**.

Observamos que hay una sentencia render para un **partial 'map'**, el cual aún no hemos creado. Para ello ejecutamos en la consola, dentro de la carpeta raíz del proyecto, el siguiente comando:

```
# echo > app/views/pages/_map.html.erb
```

```
Símbolo del sistema
C:\Sites\Development\restapp-sprint1>echo > app/views/pages/_map.html.erb
C:\Sites\Development\restapp-sprint1>
```

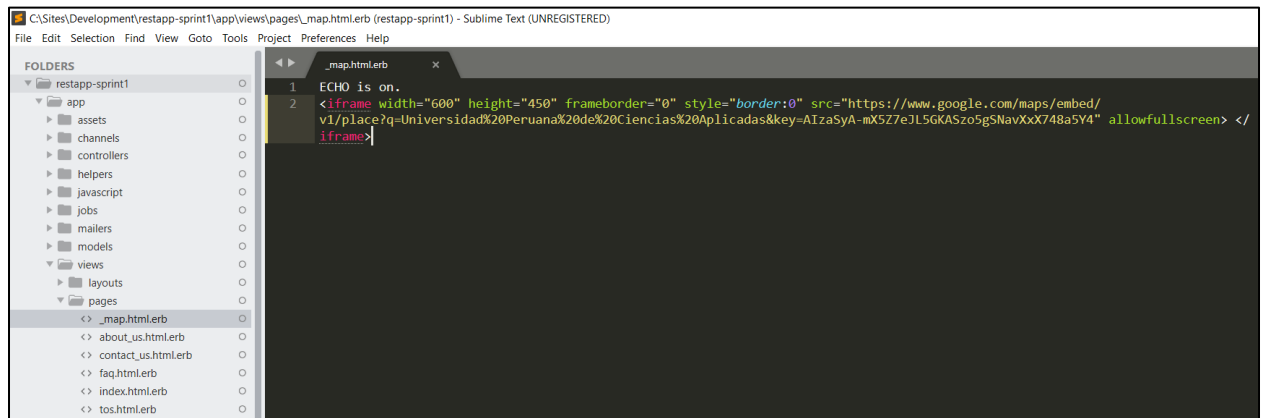

El objetivo de este **partial** es contener un **frame** con una ubicación en **Google Maps**. Para ello procedemos a registrarnos como **Google Developers**, obtenemos un **key** y generamos un **embedded code** como un **iframe** para colocarlo en el **partial \_map.html.erb**

Aquí el enlace para el registro y obtención del key y el iframe:

<https://developers.google.com/maps/documentation/embed/>

A continuación, un ejemplo del código de iframe que este proceso genera (el valor de key está en función a su cuenta de developer).

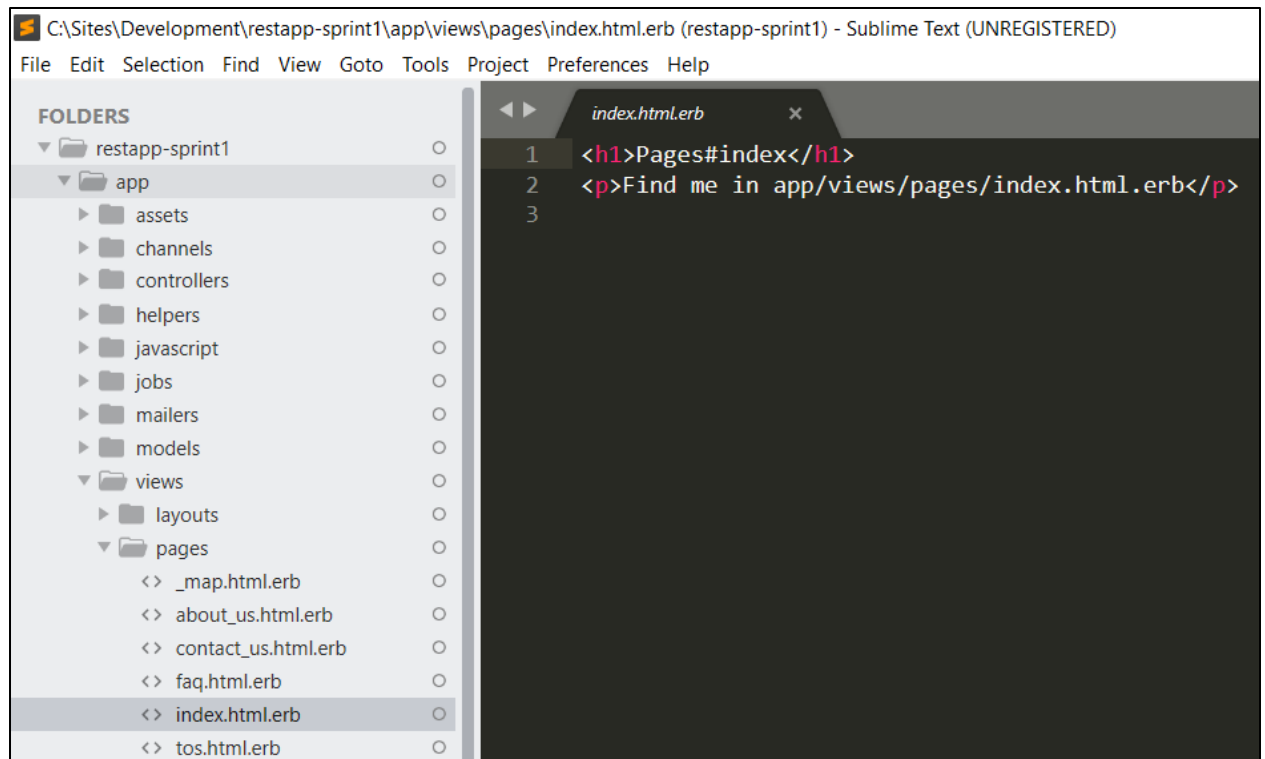

```
<iframe width="600" height="450" frameborder="0" style="border:0"
src="https://www.google.com/maps/embed/v1/place?q=Universidad%20Peruana%20de%2
0Ciencias%20Aplicadas&key=AIzaSyA-mX5Z7eJL5GKASzo5gSNavXxX748a5Y4"
allowfullscreen> </iframe>
```

Luego de colocar el código de iframe obtenido, guardamos el archivo **\_map.html.erb**.

## 18) Agregando un Carrousel de imágenes a la vista index

Abrimos para edición el archivo **app/views/pages/index.html.erb**

Remplazamos el código generado por las siguientes sentencias:

```
<div id="carousel-example-generic" class="carousel slide" data-ride="carousel">
  <!-- Indicators -->
  <ol class="carousel-indicators">
    <li data-target="#carousel-example-generic" data-slide-to="0" class="active"></li>
    <li data-target="#carousel-example-generic" data-slide-to="1"></li>
    <li data-target="#carousel-example-generic" data-slide-to="2"></li>
  </ol>
  <!-- Wrapper for slides -->
  <div class="carousel-inner" role="listbox">
    <div class="item active">
      <%= image_tag "rest_slider1.jpg", html: { alt: "rest_slider1" } %>
      <div class="carousel-caption">
        <h3>Our restaurants</h3>
        <p>The best for you</p>
      </div>
    </div>
  </div>
</div>
```

</div>

</div>

<div class="item">

<%= image\_tag "rest\_slider2.jpg", html: { alt: "rest\_slider2" } %>

<div class="carousel-caption">

<h3>Our service</h3>

<p>Best quality</p>

</div>

</div>

<div class="item">

<%= image\_tag "rest\_slider3.jpg", html: { alt: "rest\_slider3" } %>

<div class="carousel-caption">

<h3>Our service</h3>

<p>Best quality</p>

</div>

</div>

</div>

<!-- Controls -->

<a class="left carousel-control" href="#carousel-example-generic" role="button" data-slide="prev">

<span class="glyphicon glyphicon-chevron-left" aria-hidden="true"></span>

<span class="sr-only">Previous</span>

</a>

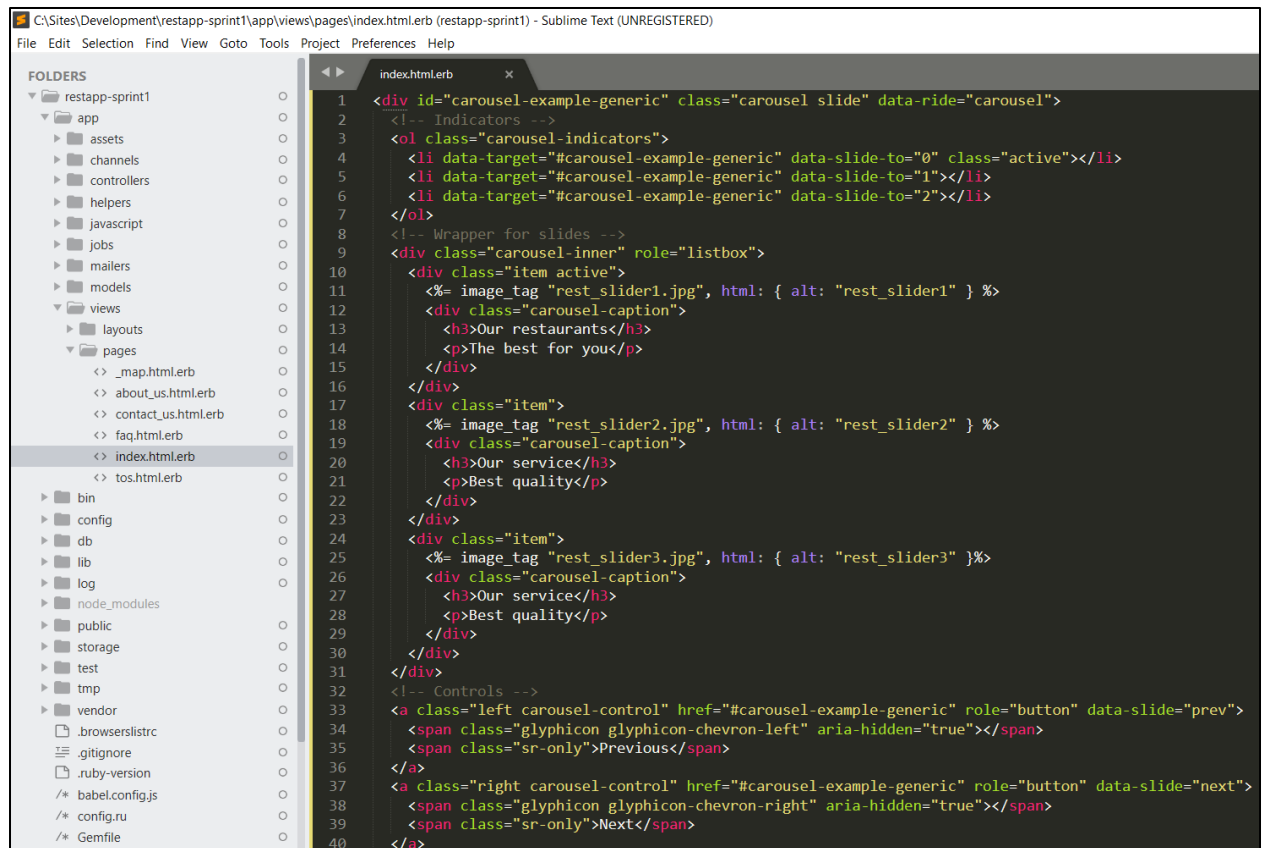

<a class="right carousel-control" href="#carousel-example-generic" role="button" data-slide="next">

<span class="glyphicon glyphicon-chevron-right" aria-hidden="true"></span>

<span class="sr-only">Next</span>

</a>

</div>

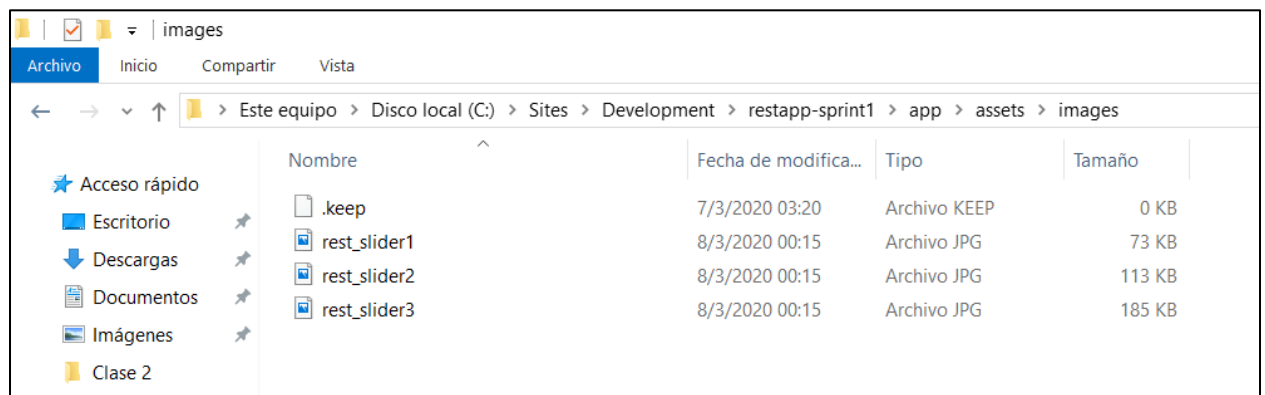

```
1 <div id="carousel-example-generic" class="carousel slide" data-ride="carousel">
2   <!-- Indicators -->
3   <ol class="carousel-indicators">
4     <li data-target="#carousel-example-generic" data-slide-to="0" class="active"></li>
5     <li data-target="#carousel-example-generic" data-slide-to="1"></li>
6     <li data-target="#carousel-example-generic" data-slide-to="2"></li>
7   </ol>
8   <!-- Wrapper for slides -->
9   <div class="carousel-inner" role="listbox">
10    <div class="item active">
11      <%= image_tag "rest_slider1.jpg", html: { alt: "rest_slider1" } %>
12      <div class="carousel-caption">
13        <h3>Our restaurants</h3>
14        <p>The best for you</p>
15      </div>
16    </div>
17    <div class="item">
18      <%= image_tag "rest_slider2.jpg", html: { alt: "rest_slider2" } %>
19      <div class="carousel-caption">
20        <h3>Our service</h3>
21        <p>Best quality</p>
22      </div>
23    </div>
24    <div class="item">
25      <%= image_tag "rest_slider3.jpg", html: { alt: "rest_slider3" } %>
26      <div class="carousel-caption">
27        <h3>Our service</h3>
28        <p>Best quality</p>
29      </div>
30    </div>
31  </div>
32  <!-- Controls -->
33  <a class="left carousel-control" href="#carousel-example-generic" role="button" data-slide="prev">
34    <span class="glyphicon glyphicon-chevron-left" aria-hidden="true"></span>
35    <span class="sr-only">Previous</span>
36  </a>
37  <a class="right carousel-control" href="#carousel-example-generic" role="button" data-slide="next">
38    <span class="glyphicon glyphicon-chevron-right" aria-hidden="true"></span>
39    <span class="sr-only">Next</span>
40  </a>
```

Guardamos el archivo **index.html.erb**.

Debemos copiar tres imágenes de alta calidad con dimensiones de 1300x867 pixels, con los nombres **rest\_slider1.jpg**, **rest\_slider2.jpg** y **rest\_slider3.jpg**. Estas imágenes ya están adjuntas con este tutorial y deben ser copiadas a la carpeta:

**app/assets/images**

Agregando un jumbotron a la vista index.html.erb

En el archivo **index.html.erb** adicionamos al final las siguientes sentencias:

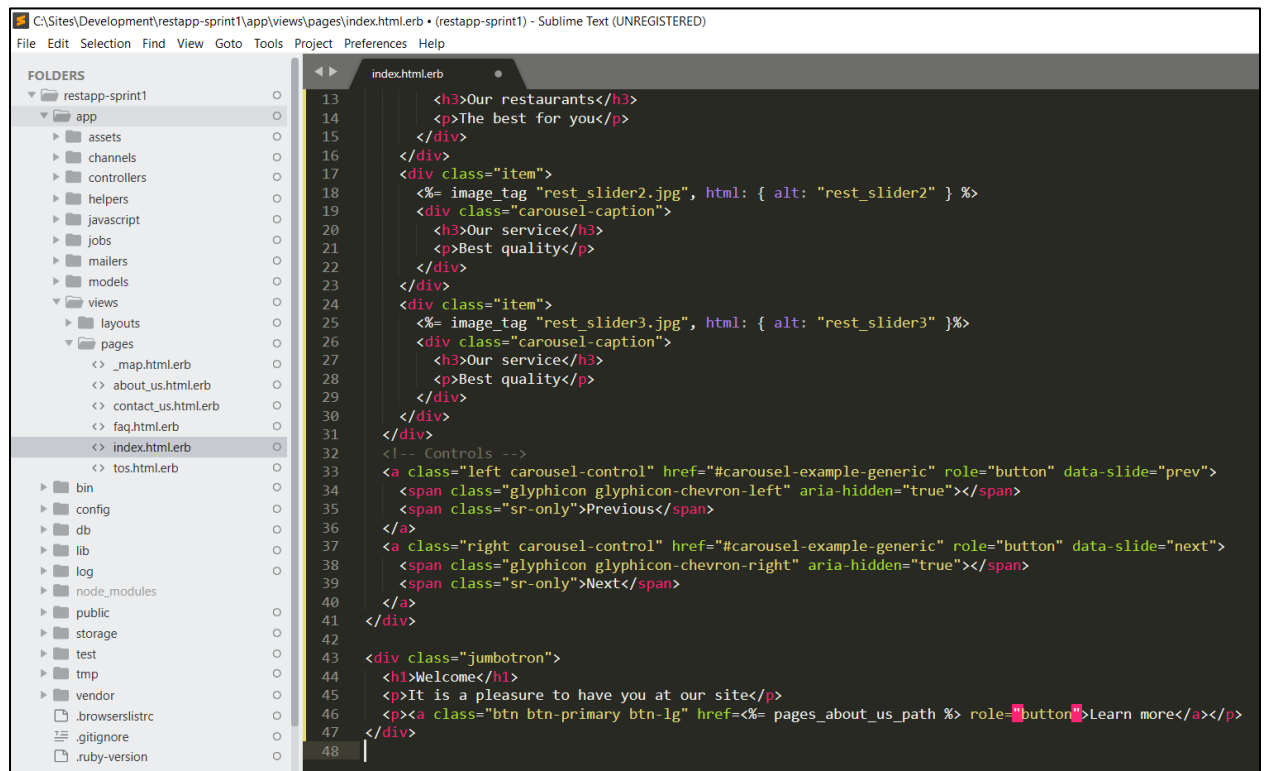

```
<div class="jumbotron">
```

```
  <h1>Welcome</h1>
```

```
  <p>It is a pleasure to have you at our site</p>
```

```
  <p><a class="btn btn-primary btn-lg" href=<%= pages_about_us_path %>
  role="button">Learn more</a></p>
```

```
</div>
```

```

47 </div>
48
```

Guardamos nuevamente el archivo **index.html.erb**.

## 19) Ejecutando la aplicación

Es momento de apreciar la experiencia desarrollada. En la consola ejecutamos el siguiente comando:

```
# rails s
```

```
Símbolo del sistema - rails s

C:\Sites\Development\restapp-sprint1>echo > app/views/pages/_map.html.erb

C:\Sites\Development\restapp-sprint1>rails s
=> Booting Puma
=> Rails 6.0.2.1 application starting in development
=> Run `rails server --help` for more startup options
*** SIGUSR2 not implemented, signal based restart unavailable!
*** SIGUSR1 not implemented, signal based restart unavailable!
*** SIGHUP not implemented, signal based logs reopening unavailable!
Puma starting in single mode...
* Version 4.3.3 (ruby 2.6.5-p114), codename: Mysterious Traveller
* Min threads: 5, max threads: 5
* Environment: development
* Listening on tcp://[::]:3000
* Listening on tcp://127.0.0.1:3000
Use Ctrl-C to stop
```

Al ingresar al URL localhost:3000, podrá apreciar la vista **index**.
